What is international credit mobility?

For over 25 years, Europe has funded the Erasmus programme, which has enabled over three million European students to spend part of their studies in another higher education institution (HEI) in Europe. Erasmus+ continues these opportunities, allowing for mobility to other continents (between the so-called "Programme" and "Partner Countries").

Erasmus+ now offers opportunities for students to study or train and staff to teach or train in HEIs beyond Europe. It also makes the same opportunities available for staff and students from countries beyond Europe to come to participating HEIs in Europe. This is known as International Credit Mobility and is an activity under Key Action 1 Mobility.

What is the AMIGO Consortium?

As part of the Erasmus+ Program, the AMIGO - Environment and Management Higher Education Mobility Consortium was accredited, comprising the following national institutions: Polytechnic Institute of Tomar, University of Aveiro, University of Évora, University of Lisbon and NOVA University Lisbon. The consortium's member institutions belong to the Network for Environmental Studies in Portuguese-speaking countries (REALP)
